MOVEMENT OF TROOPS.

We have always been unable to comprehend the motives for moving about horse, foot and artillery at dead of night, as the practice has been in Buenos Ayres for some years past. Every good reason points to the convenience of such movements being made by day, whereas these nocturna manœuvres have invariably the effect of throwing our city into the same alarm as if a revolution had broken out.

This is what occurred on Thursday night, when two companies of engineers arrived by rail from Santa Catalina, at 12 o'clock, at the Plaza Constitucion terminus. It appears that the Chief of Staff had sent orders the previous day for the companies in question to come to town, but forgot to advise the Minister of War or Chief of Police. If the men had come by day there would have been no mystery or alarm, but at the dead of night it was a different matter.

The Minister at once procured troops from the Retiro to protect the Government House, and the police sent a picquet of firemen to guard Pres. Peña's private residence. Some hours passed before it was discovered that there was no motive for alarm, and many people felt exceedingly annoyed at a business which looked so very ludicrous.

Serious consequences might have followed the concentration of the police, who were all called in from their respective beats, and we observe that various alarms of fire were sent to the Policia from opposite quarters of the city, by persons of bad intentions. Dr. Donovan, the late Chief of Police, says in his report that Buenos Ayres contains a greater number of criminals, mostly refugees from Europe, than any other city of the same size in the world. Hence it is very dangerous to suspend the police service, as on Thursday night, even for an hour.

There are some things in England better managed than here, and one is as regards the movement of troops, which is always gazetted a day or two previously. Thus you will read in the London papers—

"The first battalion of Rifles will leave Canterbury to-morrow for York.

"The 11th Hussars are under orders from Chester to proceed to Dublin."

Now if the War Office of Buenos Ayres were to publish similar movements it would prevent such a panic as seized our city on Thursday night. We read that the President, the Minister of War and others passed some hours of anxiety and did not get to bed till cock-crow.

If the Government will not change the peculiar practice of moving troops by night we may venture to suggest that two staff officers be kept in the War Office every night, and that whenever a body of troops is despatched a telegram be at once sent to the War Office announcing the fact. Otherwise we may have a repetition of these stupid alarms.

DON MANUEL CHUECO'S REPORT.

We published yesterday a summary of this valuable report, as it stands in currency dollars, but it is expedient to consider it also in hard money, reducing the amounts each year to gold.

	Income.	Expenditure.

1880..	740,000	610,000

Total	29,390,000	60,440,000

The receipts and expenditure under the 5 successive Intendentes shewed as follows in gold:—

	Income	Expenditure
	$ gold	$ gold
Alvear.....	15,510,000	25,610,000
Crespo	4,440,000	11,160,000

Total....	29,390,000	60,440,000

The monthly receipts and expenditure from January 1883 to Dec. 1891 averaged as follows —

	$ gold monthly	
	Income	Expenditure
Alvear....	225,000	420,000
Crespo....	300,000	740,000
Cranwell..	305,000	1,060,000
Seeber.....	260,000	760,000
Bollini....	180,000	255,000

The various items of expenditure during 12 years, 1880-1891, summed up as follows:—

	$ gold	£ stg.
Paving	14,560,000 =	2,900,000
Boulevards...	5,980,000 =	1,180,000
Salaries	11,210,000 =	2,220,000

St.-lighting..	2,770,000 =	550,000
Sundries, grottoes &c.	13,800,000 =	2,750,000
Total....	60,440,000	12,000,000

With respect to Alvear's ill-fated Boulevard Mr. Chueco makes the following remarks.

"The law for making the Mayo Boulevard was passed in Oct. 1884, for which purpose a loan of 4,000,000$ was ordered; this realized the sum of 2,880,000$, but the expenditure on the Boulevard to date is 10,590,000$. The interest on this sum means a burthen of 500,000$ a year on the city.

"It was estimated that by charging 1,500$ per metre frontage the Municipality would get 6,000,000$ for sites on the Boulevard, but I think this is an exaggerated estimate. Meantime it is believed that a further sum of 5,000,000$ would suffice for the remaining expropriations. In this case the Boulevard would prove a dead loss of 10,000,000$ to the city. Those who have compared Baron Haussmann's work in Paris with this project forget that Napoleon III had a political object in view. As a general rule no city like Buenos Ayres should undertake colossal works of this kind without counting the cost."

CRIMINAL RECORD FOR 1891.

PROVINCE OF BUENOS AYRES.

The Chief of Police at La Plata, Don Gmo. Nunes, publishes his report for 1891. The number of crimes committed in the last three years was as follows:—

1889.....	4,314
1890.....	3,570
1891.....	3,902

The crimes of the last two years were made up thus:—

	1890	1891
Murder...	192	214
Stabbing.	1,628	1,453
Robbery.	602	653
Various..	1,148	1,582
Total..	3,570	3,902

Mr. Nunes observes that crimes of blood are more frequent, those of robbery less so, than in Europe. If the reverse were the case it would be much better.

The above record of murder is by no means complete, since many cases of stabbing result in the death of the victim. We shall be considerably within the reality when we say that 300 persons are assassinated yearly in the Province, out of a population of 800,000 souls. The total number of deaths being 12,000 per annum we find that 2½ per cent of the population die by the hand of a murderer. This is a very shocking state of things, the more so when we compare it with other countries, viz:—

	Murders yearly	In 1,000 deaths
B. Ayres province	300	25·0
U. Kingdom.....	430	0·5
France.....	816	1·0
Germany.....	602	0·5
Hungary.....	1,682	3·0
Italy.....	3,712	4·5
Spain.....	1,807	3·6
Belgium.....	117	1·0
U. States.....	7,386	7·3

Making every allowance for the lawless nature of the country, the number of murders is ten times greater than could be expected.

YESTERDAY'S ALARM.

At 1 a.m. yesterday morning there was serious alarm caused. The entire police force was under arms. The Fire Brigade was armed and sent as a guard to President Saenz Peña's house. An officer was despatched to summon the troops from Maldonado; the Retiro forces were roused, and it is even said that pieces of artillery were placed outside the Government House. All this alarm was caused by the forgetfulness of the Chief of the Estado Mayor, General Emilio Mitre. The particulars of the strange, eventful story are as follow:—

Towards midnight on Thursday, a Commissary rode up to the War Minister's house and knocked loudly and longly. The Minister, who believes in going to bed early, was sound asleep since 10.30. He was awakened by the knocking, and thought that some important news from Santiago del Estero had been received. On the servant opening the door, the Commissary rushed in and informed the Minister that a detachment of troops was marching on the Government House. The Minister dressed hurriedly and immediately adopted the measures already mentioned, while an orderly was sent to rouse General Emilio Mitre. This dignitary soon joined the Minister and seemed just as puzzled as H. E., when he suddenly recollected that he himself had ordered in the mysterious battalion and had forgotten to warn the police! The War Minister then proceeded to undo all that had been done, but the alarm became general. Many people thought that a revolution had broken out.

The President was much alarmed. H. E. got out of bed and dressed.

The affair was the all absorbing topic of conversation in every circle yesterday, and, in spite of the very simple explanation of the cause of the alarm, many people attached a good deal of importance to the incident. We trust the Chief of the Staff will be more careful in future.

MAILS FROM CHILE.

RESUMPTION OF SPECIE PAYMENTS.

Valparaiso, Oct. 5th

The well known analysts and bacteriologists, Messrs. Newman and Salazar, have, at the request of the Intendente, made a complete scientific examination of the water in the Monte Alegre tank, which is situated within a few yards of the German hospital, and they report that they have found in the water the "bacillus of Eberth, of Gaffky, of Chantemesse and Widal, that is to say the germ which the great majority of pathologists of the present day consider to be the immediate cause of typhoid fever." It is probable that their report may rouse the authorities to action in this vital matter.

It is with profound regreat that we announce the death in Santiago on Sunday, of H. M. Charge d'Affaires, Charles T. Maude, Esq. The deceased gentleman was attacked with typhoid three weeks ago since, and notwithstanding the efforts of the physicians who attended him, the disease continued to make inroads into his constitution.

The funeral took place yesterday. A little after noon the coffin covered with the British flag was placed on the hearse, and the cortege started for the cemetery in the following order:—

The Hearse.

Government coach conveying the Minister of Foreign Affairs, the Dean of the Diplomatic Corps, the British consul-general, and presidential aide-de-camp.

Coaches containing deputations of the Senate, the Chamber of Deputies, and the Diplomatic Corps.

Battalion of Military Engineers.

Long line of privated coaches containing friends, Chilian and English, of the deceased.

On arriving at the Cemetery the following gentleman acted as bearers:—

The Minister of Foreign Affairs.
The Dean of the Diplomatic Corps.
Senator Augustin Ross.
Deputy Juan Antonio Gonzalez.
The Spanish Minister.
Mr. Sinclair, attaché of the British Legation.
The British consul-general.

Funeral orations were delivered by the Minister of Foreign Affairs and the Dean of the Diplomatic Corps, and after the body had been deposited in the family vault of the Dean of the Diplomatic Corps, the military honours due to the rank of the deceased were paid and the procession was reformed and returned to town.

On Monday and yesterday flags were half-masted in Santiago at the Moneda, and the foreign legations. Here flags were half-masted at the Consulates and on the British vessels in the harbour; and the same mark of respect was shown all along the coast at the British consulates and on British vessels.

Congress has been convoked to an Extra Session, commencing from Monday, and among the the business set down for its consideration is the sale of the Government Nitrate properties. The Nitrate producers are, naturally enough, opposed to the sale of these properties, but the interests of the State, which are supreme in this matter, demand that the properties in question should be disposed of to the highest bidder. As they are at present they constitute a considerable annual charge on the national exchequer and many of them are steadily depreciating in value. Some of these properties may, it is true, continue to be held by Government for some time longer without any danger to their ultimate value, but there are others again which ought to be brought into the market without any further delay for the simple reason that their value—not in machinery alone but in contents also—is decreasing every day.

Some very radical changes in the Municipal life of the country are about to be carried into effect. They are intended to make the Municipalities self-reliant and self-supporting. These bodies will no longer receive the pecuniary assistance of the Government, but each one for itself will have to paddle its canoe. This, of course, means to say the Municipalities will have to procure for themselves, and without extraneous assistance, the money they may require for the administration of their respective localities; and this means, to some extent, increased taxation. This increase will vary according to localities, but there is a probability that in no case will it be so large as is generally apprehended. The Municipalities will be minus the annual grants they received from the Government, but on the other hand they have in the Trade Licences a source of revenue which formerly helped to swell the receipts of the national exchequer. The method of levying municipal taxes will be simplified, and the people will have the privilege, which they have not hitherto enjoyed, of having a voice in this very important matter. The new law will, in fact, bring them one step nearer to self-government, and the next and crowning reform will be to liberate the Municipalities from the last remaining vestige of Government tutelage in the from of the presiding officers.

The following is "precis" of the Bill as passed by the Deputies and sent up to the Senate for resuming specie payments.

1.—Government bonds bearing date January 2st, 1893, with six per cent. interest and one per cent. amortisation per annum shall be issued for £1,200,000 the service of which shall be made in Santiago, Paris, London or Berlin at the option of the Bondholders.

2.—The allotment of those Bonds shall be made by means of sealed tenders at not less than ten dollars paper for each pound sterling of the capital and interest accruing in the half-year.

3.—The Paper Money acquired by this oan shall be incinerated to the amounts of ten millions of dollars.

The remainder shall be expended in the purchase of gold and silver for coinage in conformity with the provisions of this Act.

4.—In 1894 the amount of $8,000,000 paper-money shall be burnt, and in the following year $10,000,000.

5.—From 1st January 1896 paper-money shall cease to be legal tender, unless convertible for specie.

6.—The Banks may issue notes of ten, twenty, fifty, one hundred and five hundrad dollars, provided the issue never exceeds 5 times the amount of gold on hand.

7.—The obligations contracted before the issue of Paper Money shall be cancelled with Paper Money or with silver dollars in the equivalent of the money created by this Act.

The President of the Republic shall fix on December 31, 1895, the relation that exists between this money and the silver dollar.

8.—The State will coin as follows:—

Silver.....	5 cent.
„	10 „
„	20 „
„	one dollar.
$	
Gold, escudo.....	5
„ doubloon....	10
„ condor.....	20

9.—The monetary unit shall be the twentieth part of a condor, or the tenth part of a doubloon, or the fifth part of an escudo, which shall be denominatad a gold dollar, or simply a dollar; and with it all obligations shall be cancelled, except there shall be a legal stipulation or provision to the contrary, and excepting the provisions of the following articles.

LATEST FROM MONTEVIDEO.

Friday Evening.

Telegrams received from the rfontier state that people are in an anxious state of mind. Several Rio Grande conspirators have crossed the frontier.

A telegram from Treinta y Tres states that Mr. Viana, editor of the *Verdad*, who was so brutally and barbarously tortured the other day by the local authorities, has left for this city. He will lay his complaint before Government. It appears that he was so savagely ill-treated, that the whole population is full of indignation, and disturbances are feared.

H.M.S. Basilisk arrived to-day from B. Ayres.

The passengers by the Aconcagua have been released from quarantine.

The new Chilian Minister to Brazil, Dr. Lira, left yesterday for Rio.

Owing to the dense fog this morning the port doctor could not visit many vessels

The statutes of the Banco Hipotecario del Uruguay were approved by the Finance Minister to-day.

It has rained all over the country.

PROVINCIAL NEWS.

The flare-up in Santiago of the Swamp has knocked the beetroot and paving stones of Cordoba off the perch. However, very little can be added to the particulars we published in our last, the only fresh item of importance being that ex-Governor Ruiz, the 'alter ego' of the deposed Governor, has managed to collect quite a formidable body of men, 600 strong, all armed with rifles. The revolutionists, however, are more numerous and better armed. Nevertheless, there is a prospect of civil war in the province if the National Government do not immediately send up an interventor to reinstate the overthrown Government and enforce respect for constituted authority. Mr. Pedro Garcia, who headed the movement was wounded in the fray in the shoulder, but the wound is light and he does not consider it an impediment to his assuming the reins of power. Mr. Garcia is an experienced revolutionist. It was he who upset Governor Ruiz.

Telegrams received from Catamarca yesterday point to a very anxious condition of the public mind in that province. A strong current of emigration has set in and the principal families are abandoning their Lares and Penates. The greater number of them are taking up their abode in Cordoba, which, besides being the most learned, is also the most peaceful of our provinces. The Cordobese are even pacific in their revolutions, witness the overthrow of Governor Olmos. That was a delightfully quiet business. There was no display of firearms or knives. H. E. was bowled over by latin quotations. In Catamarca, as in Santiago, people are of a bellicose tendency, and symptoms of the same propensity are also visible in the condition of affairs in Tucuman, where the Governor is beginning to feel uneasy. The opposition element in that sugary province is very strong.

We gather from our Rosario exchanges that the row between the corporation continues, much to the disgust of the good Rosarinos. The Corporation maintain that the Intendente has no right whatever to make any arrangement in regard to the Municipal Debt. The Intendente is at present here trying to make arrangements in regard to the Debt. Poor bondholders!

According to our esteemed contemporary the *Buenos Ayres*, the authorities of Loberia have run amuck. Honest, hardworking people are arrested, tortured, thrown into prison, fined, and in fact subjected to all kinds of ill-treatment. Even if dishonest, good-for-nothing people were treated in this way, the authorities would be greatly to blame; but the abuse amounts to a crime when the police "go for" honest, hardworking people, who are very scarce.

ECONOMIES.

October 19th.

Mr. Editor,

As the present Government appears to be entering on a "reparacion" programme, one suggestion more, added to the many which will doubtless be thrust on the Minister of the Interior in the columns of the press, may do no harm—if it do no good. Being simply an administrative conception, it may be acted upon or rejected as the case may be.

It has often occurred to me that crimes of a serious nature are left unpunished from the inability of the Executive to exercise the necessary jurisdiction over a large extent of territory, and the expense consequent on the maintaining of offenders who may be sentenced to long periods of imprisonment in public jails. From a social and economic view, I believe an easy solution may be found, but like everything else it wants a beginning. The Penitenciarias of Buenos Ayres, Sierra Chica, and other establishments of the "genus" in the provinces afford a comparatively comfortable existence to assassins and people of the "bandolero" class at a considerable expense to the nation without any corresponding return to the country in the shape of production.

We know from several good authorities that valuable minerals exist in various parts of the provinces which at the present moment cannot be made remunerative to private enterprise because of great cost of labour and the uncertainty of regular annual returns. The cost of working these natural resources, in which the labour element figures conspicuously, is great enough to deter capitalists from risking capital in undeveloped areas unless they feel assured from superficial investigations that future workings will repay their outlay.

Here, therefore, would be a means of utilizing dormant forces at present a burden on the taxpayer. Let all criminals sentenced to a period of 5 or 10 years seclusion be transferred to the mineral districts belonging to the State, so that some result may be obtained in the way of reducing the cost of administration. The nation surely possesses capable mining engineers to direct the technical operations, and for the purpose of discipline surely also a few companies of the military force would be disposable. However small the production in the first few years, I am confident that the result would, even in the present president's term of office, materially assist the "Caja de Conversion" in its difficult problem. Even if no great financial result be obtainced, it would help the "Ministro de Hacienda" in his "gastos generales."

I remain,
Yours truly,
It. M.

MENDOZA.

On Sunday, the Plaza Independencia was gaily decorated for the Floral Corso with banners and Chinese lanterns, the centre being staked out. At 5 p.m., the carriages began to stream in and the drive was very soon filled. Many of the carriages were most tastefully decorated. Unfortunately, when the band had played one piece, and the Spanish chorus had sung two pieces, and the flower throwing was just becoming animated, the rain began to fall in torrents (a most unusual thing in Mendoza, this being the second heavy storm in ten months) and it was a case of "sauve qui peut." Many of the ladies were in light fancy dresses and must, notwithstanding the promptitude with which the Plaza was cleared, have been wet to the skin. The "Cazadores de los Andes" were were the first to leave at the double, being in this case 'hunted' by the rain that came from that range of mountains Needless to say, the lanterns and decorations were completely spoiled and the evening fete became out of the question. Although the rain which lasted until 1.30 p.m. on Monday put an end to a day's amusement, it will do an inestimable amount of good to the vines, &c., and vine owners are as jubilant as the young ladies are mournful. The is no ready money in the City, even the most 'aristocratic' are living on credit, in the hope of a good harvest this year.

The fact of the premium on gold having fallen so much lower than it has been for a very long time does not appear to affect the prices of the products of the country. Beef has now reached 30 cents per kilo, the highest price known for three years.—*Herald.*

RAILWAY ITEMS.

The representative of the East Argentine Railway has requested Government in a voluminous document to reconsider the recent decree ordering the guarantee to be paid minus certain items which the N. B. Board think the Government should not pay.

We gather from official sources, that the gross returns of the Sta. Fe and Cordoba Great Southern in four months ended July last amounted to $171,145, the expenditure being $142,901, leaving a net earning of $28,244. This compares very favorably with the corresponding period last year, when the returns were $79,876 and the expenditure $140,428, shewing a loss of $60,552.

A telegram received yesterdey from Rosario reports a collision at the Pavon Junction. No one was hurt.

EDITOR'S TABLE.

Did your ever in all your life? Never! The false alarm of Revolution in the small hours yesterday morning is the queerest thing on record. The venerable new President and his scarcely less venerable Ministers (minus Dr. Quintana, who was too wide awake to get up) startled from their beds; the troops and police called out, and the whole population frightened out of their seven senses; and all because General Emilio Mitre, Chief of the Staff, has a bad memory, and forgot his own orders. Nothing so funny has occurred here or anywhere else since the Flood. The whole thing, however, shows the brittle state of affairs that still prevails. See another column for particulars.

It was known last night that Government will send a message to Congress to-day about the ruction in Santiago, with Governor Rojas's demand for intervention. It is said that there is a majority in the Senate against intervention.

There are 35,000 Mauser rifles on the way from Europe for the Argentine army; also cartridge-making machines.

Dr. Almeda's Beet-root Bill is to be included in the extra session. A bounty for beet-root!! Is this economic reform?

A raid of Indians, the first for 15 years, is reported at Reconquista.

The Deputies met yesterday and the gallery for the public was crowded; but the "respetable publico" were terribly "sold;" as there was nothing before the House and it rose the moment it sat down.

No fresh news of importance from St. Jago of the Swamp yesterday; but it was said that Tucuman, Jujuy, Catamarca and San Luis are also pining for a row, and mean to have it.

The Hat again! Whenever there is anything serious going on, the Argentine hat is sure to turn up. (Witness Deputy Lastra's election). Yesterday morning when the revolution scare was at its height, the hat shop of Mr. Boss, at the corner of Florida and Rivadavia, burst into flames. The Bomberos were all under arms protecting President Peña, so there was some delay in tackling the flames, but they were finally mastered and Mr. Boss marched to prison. Mr. Horne, the "cambista" next door, is on the horns of a dilemma, together with Signor Lacini, whose shop full of exquisite fans, parasols, etc., is well known to our lady readers. In the confusion of the fire the thieves paid both of them a visit, "damnifying" Mr. Horne to the tune of $3000 and Signor Tacini $5000.

Whoever wants to buy fine glass, porcelain, bronzes and other nice things should visit the establishment of Mr. John Ramsay 2511 Calle Santa Fé. See advertizement in another column.

Our Packet Edition for the Equateur, which will sail on Monday, will appear to-morrow; and our office will be open from 9 to 11 o'clock for its sale.

Our new Handbook is now on sale at the English Book Exchange, 333 Calle Florida.

The poor policemen looked terribly drowsy at their posts yesterday. Not one of them got a wink of sleep, owing to the revolutionary mare's nest.

In spite of the bad night he passed, President Peña took a stroll with the Lord Mayor to visit some industrial establishments yesterday

The *Nacional* repeats its story of Chilian spies being at work on the Argentine frontier.

Two thousand railway employees in Chile have struck, and there is tremendous public inconvenience. It is said the lines will be handed over to private companies.

The Children's Charitable bazaar at Quinta Riestra near Flores comes off to-day from 4 to 6 o'clock. The weather promises well, and the soirée is likely to give much amusement to the children, apart from the charitable purpose. The charges for everything are to be very small, in keeping with the little people themselves.

The following are the big prizes drawn by the Montevideo Lottery yesterday:—8150, $20000; 4260, 1000; 4342, 1666, 500 each; 6011, 1385, 9659, 200 each; 5631, 2522, 10191, 6866, 10905, 3908, 9609, 100 each.

The new comic ballet at the Folies Forlet, "John Tripette," will take the town by storm. Also "Tartarin en Amerique" which is being rehearsed.

With reference to the execution of Queen Mary Stuart we are requested to point out that the Tableau on Wednesday night should not have had a Catholic clergyman. It is well known that Elizabeth would not allow a priest to attend her. Dana's Cyclopedia has the following:—

"Davison held the warrant for her execution. He and Walsingham failed to induce her gaolers to poison her....

"The Earls of Kent and Shrewsbury arrived with the warrant on Feb. 7th. Next morning at the appointed hour she proceeded to the scaffold, erected in the banquet-hall. She was denied a priest, and was rudely importuned to change her faith by the bigoted dean of Peterborough and the brutal Earl of Kent, whose efforts she quietly but firmly repulsed. She died with heroic bravery".

The bodies of two drowned Englishmen were found in the docks yesterday one: in the Darsena, the other in Dock Three.

The night train from this city on the Rosario line on Thursday night ran into another near Pavon, but, fortunately, no funeral followed.

Mrs. Michael Mulhall gratefully acknowledges the sum of $200 currency from Mrs. Lorenzo Garrahan in aid of the funds of the Boys' Orphanage.

The German Singing Academy celebrates its 30th birthday on Monday evening and a great musical treat is promised to all lovers of music. The Academy owes its great success to the stars that shone and the nightingale that warbled in the hall of the Old Coliseum, so full of "saudades" to all old residents, full of echoes of Mrs. Krutisch, Mrs. Emma Rodenau, Mrs. Niebuhr, Mrs. Mantels, and Mrs. Hudtwalker; we must also mention the valuable cooperation of such musicians as Mr. Carius, Niebuhr, David Krutisch, Querfeld, and Mr. March. The present high standing of the Academy is also due to the ability and ten years' persevering work of Maestro Melani. We have no doubt that the 30th birthday of the Academy will be a splendid success; the 114th Concert marked on the programme will no doubt be one of the most successful on record; Miss Wohlers and Miss Quade figure prominently in the programme.

Visiting the Sins, &c.—Emily: Ethel Montvale dances divinely, does she not? —Clara: Yes; but if I were she I wouldn't dance so conspicuously well. —Emily: Good gracious! Why not? —Clara: Well, it may remind people of the fact that her mother was once in the ballet.

The Anglo-American Society have again kindly called on us to join them in honouring Terpsychore at a ball which they give to-night in the La France Hall, 444 Suipacha. The present is just the season for "the light, fantastic toe"; neither too hot nor too cold.

Our London friends are bursting with money. They subscribed for the recent Chilian Loan *ten* times over.

There is a large picture of the sad Rosales affair on view at Demarchi's in Calle Florida, and crowds throng the pathway all day gazing at it. It represents the ill-fated crew leaving the steamer.

The Children's Pantomime gave the very respectable net result of $12,079.

The Lord Mayor has come down on the itinerant ice vendors, and asked the Chief of Police to pounce on them wherever he sees them, as they are all drummers for the Visitor from the Ganges. His lordship is right. A good dose of ice made from bad water is highly likely to stir up any cholera bacilli that may be knocking about. Pesteur waras those who desire "to live long in the land," not to use ice during an infectious epidemic, unless prepared from water previously boiled. The microbes are as merry as crickets in an iceberg, in a steam bath they are always at home.

The Italians at the Boca are going in for a grand Regatta to-morrow, and have asked their friends from the centre, including "Putney" and the "Tigre-rowers." We suppose the first will accept and the latter plead a previous engagement, or sudden illness.

A funny kind of paper has been started in Montevideo. It is called the *Propaganda Comercial*, is of one small sheet, and 20,000 are distributed free, gratis and for nothing. An inspired poet is kept on the premises and for a small fee is prepared to immortalise (more or less) any particular business in hexameters, or pentameters, or Alexandrines, as occasion may suit; and in order that there may not be the least doubt as to the intention, the subject thus versified to order is displayed in capital letters.

Telegrams from that unfavourably known place Porto Alegre say that the people are not in a particularly joyous mood there at present, as they are in daily expectation of another revolution.

The shinplaster terror is still haunting Montevideo. The Government papers deny that there is anything of the kind in the wind; and this has increased the public apprehension that there is. What is all but certain is a proposed tax on foreign banks, telegraph companies and railways. This will overflow the Uruguayan cup of bitters in London.

Messrs. Drangosch and Beines, the well-known music publishers at 1032 Piedad, have kindly sent us a lot of new music. We cannot try it ourself, as the STANDARD piano is on vacation; but on reading the several pieces over we can confidently recommend it to our musical readers. Amougst it is a Polonaise by Poderewsky, for piano: "Tu," a walse-melody for voice and piano by Mario Costa; "Con Te", voice and piano, by Tosti; and a "Melodie Italienne for piano by Moszkowski.

The Bishop of Salta paid President Peña a visit at the Government House yesterday, and was most cordially received by the Chief of the State.

There is joy in the Government House, where bad wax candles have been the only artificial lights obtainable since the change of Government. The old Gas Company has smoothed its angry brow and turned on the gas again, on condition of being punctually paid its bill in future.

The English Book Exchange at 333 Florida sends us the following list of new books arrived by the Magdalena: Anstey, Music Hall Sketches, O'Rell, Friend Macdonald, Grossmith, Diary of a Nobody, Salamon, Woman through a Man's Eyeglass, Zangwill'sten Old Maids Club, Kennedy, Sporting Sketches in South America, Rider Haggard, Nada the Lily, Conan Doyle, Micah, Knight, the Falcon in the Baltic, Barrie, The little Minister.

We are requested to announce that to-morrow morning, at 11 a. m., there will be a service in the Church at Espeleta, conducted by Pastor George Smith.

A French lady, Madame Boffard, is going to start a model dairy in Palermo Park, where the fashionable frequenters of the place can enjoy a glass of milk served in a very different style from that at what "Paradox" would justly call the "abominable" "tambos".

The Lord Mayor wants the Senate to look alive and come to some decision as to what is to be done with that whitest of white elephants the Argentine Pavilion. The precious animal is packed in no fewer than 6000 cases, and the weather is playing old Harry with half of them.

There is either a mistake in the death figure (65) published yesterday, or the health of the city is very bad indeed. The average should be about 40 per day. Over half the 65 were children.

The German Government has decided not to use any white horses in the army in future. It is claimed that owing to the adoption of smokeless powder animals of this colour would be seen from a distance during a battle, and could be easily destroyed by the enemy.

There is a new bathing establishment nearly ready for the coming season at the Argentine Brighton, Mar del Plata. It is only four squares from the sandy beach, and a tramway will carry the bathers there and back. There will be 300 bathing boxes, 150 for each sex, all fitted up in elegant style, and a restaurant.

All ye good people who live in Flores and Belgrano look out for your dogs. The Poisoning Brigade have received orders to begin their Spring manœuvres.

The demand for the Beneficencia Lottery tickets for Thursday's Drawing was extraordinary, and they rose like the Gold Eagle. Fifteen dollars was paid for a $5 ticket, the speculaters having nearly the whole issue in their hands. The curious part of the case is that this Lottery does not offer nearly so many chances as that of La Caridad at Montevideo. The Damas de Beneficencia should open places for selling direct to the public, and throw the "loteros" and speculators overboard; otherwise the public may take it into their heads to stop buying.

A Cricket Match between the Buenos Ayres Western Railway Cricket Club and Buenos Ayres-Rosario C. C. will take place to morrow at Tolosa. OUR PYJAMA SUITS

at

most disgraceful. The superior Judge in La Plata seems to have no jurisdiction beyond the pavement of the town in which he lives. It was a duty of the Juez de Paz to obey the telegraphic order from the Court; and Governor Costa, if he wishes to command the respect of the people, should punish the Juez de Paz and his wounded agent or comisario. Don Martin Colazo, who was tied down to a nandubay post for 24 hours.

The La Plata Government has named Don Edelmiro Maurá escribano to make out the title deeds for the lands which it has sold in the partido of Tres Arroyos.

Mr. Richard Sprunck, the well-known importer of pianos, left yesterday in the German steamer Belgrano for Germany. A crowd of friends accompanied him aboard and wished him "bon voyage" and speedy return.

The Minister of Public Works in La Plata has applied to the National Government for the free despatch of the Railway materials in the La Plata Custom House, which are now required for the prolongation of the Magdalena railway to Punta Piedras, under the concession to Messrs Wilkinson and Company.

The Equitable Insurance Company has just paid to the widow of Sr. Susini Sandoval 10,364 dollars gold, being the amount of the life policy on the deceased, who died but a few days ago.

All the sub-prefects who are civilians are to be removed, and at Bahia Blanca, Patagones, Chubut, Deseado, Santa Cruz, and Buen Suceso naval officers attached to the Estado Mayor de Marina are to be named; this of course will prove a great saving to the Government.

Everyone on 'Change speaks of the rather humiliating fact that the gas has been cut off at the Government House for the non-payment of the gas bill, and at a prolonged meeting of the Cabinet, held the other evening about the Santiago Revolution, President Saenz Peña ordered the gas to be lit, but it could not be done, and the Ministers had to send out for candles. Such things speak badly for the administration of public affairs. Even if it occurred in one of our banks or merchant offices it would affect the credit of the establishment, and much more so in our public departments where everything should be conducted under a proper method. The gas-man has probably called round at the Government House 500 times to collect his bill; both his boots and his patience are worn out, and his only chance of getting paid is to cut off the gas. Need we be surprised that when such things occur here in the very capital of the Republic there should be revolutions in Santiago del Estero and "bochinches" in the camps of Buenos Ayres. Some of the brokers say that the out-going Government paid off everything before it left office, and that 6,000,000 nats were disbursed within the last week in paying off accounts. How then does it happen that the gas-man was not paid? We hear that two bills of exchange, one for £50,000 and the other for £60,000, were remitted to England to pay off bills just before the Government went out; it is, therefore, all the more extraordinary that the gas-bill of the late administration should have been left unpaid.

The news from the colonies is most favorable. At the estancia General Paz, belonging to Señor Pareja, a lively auction of blood-stock has been just held by Sr. Lamas, the great Rosario auctioneer. Seventy-six Durham bulls, 160 mestizo novillos and about 500 vacas criollas sold at full prices. The auction realised 31,200 nats. Sr. Pareja has 4,000 squares of land under wheat, which is all coming up beautifully, and is one of the best wheat farms on the Central Argentine Railway. Passing from Santa Fé into Cordoba, it is noticed that the Cordoba wheat looks best; the locusts hereabout have done very little damage, and the colonists are in great hopes of a splendid harvest. At some places the wheat is beginning to blossom, and in other parts "espigas" are formed. In the large wheat farm belonging to Sr. Diaz the wheat is already "espigado," and the whole country hereabouts presents a most delightful aspect. In Villa Maria they have had most tremendous rain-storms, and the telegraph posts are down. At Rafaela, where the whole country is under wheat, they have had continued rain-storms, and the wheat looks so well that the colonists are as happy as the day is long, as they expect a magnificent harvest. The committee for the destruction of the locusts meets with every support from the colonists, and the purchase of the locusts' eggs is giving the best results, particularly at the colony Esperanza, where 5,000 kilos of eggs have been put in a pile and photographed; but the colonists of Esperanza are greatly afraid that they will lose the linseed crop, which has been much injured by the locusts. The International Workmen Society in Rosario has named three delegates to represent them at the Workmen's Congress to be held on the 30th in Buenos Ayres; but, in order to save expense, they have sent Mr. Torrent down from Rosario with power to name two delegates here to represent them.

The statutes are published of a new joint-stock society called Emporio Artistico, Casa de Remate. The capital of the company is only 20,000 dollars, but, to judge by the statutes, the company expects to do a very large business.

The Credito Publico Nacional has received from the Municipality 14 million of new bonds to pay over to Messrs. Bemberg and Co. for the overdue service of the Municipal loan of 1884. We suppose these bonds will be sent on to London, although what they will do with them there is difficult to say.

Mr. Gibson's lecture on farming in the Argentine has attracted great notice in England, and the following letter from Mr. James Fair, who is well-known to us all, will be read with interest here and may attract replies which it would never get in Edinburgh:—

To the Editor of the *South American Journal*.

Sir,

I have read, with great interest, Mr. Gibson's paper on the above subject in your last issue. It is a pity he did not publish a *pro forma* statement of cost and yield of an estancia, say, of one league, and of No. 2 land, taking legal dollar at 1s. 3d., and the various foreign measures at our English equivalent, giving money cost of peons, rations and allowances. A statement of this kind would be very useful if published in your paper, as, like many others, I have frequent inquiries for information on the business, and it is a difficult matter to drive into the average head the diversity of measures, monies and weights, hectares and square leagues, gold and paper, kilos and quintals, etc. Mr. Gibson is not quite clear on two points: at paragraph, page 258, in calculation as to sale of steers, he says that they must be three-year-olds, but a purchaser expects return at end of first year. Again, page 259. Does the example he gives as to carrying capacity of a league of land include 15,000 head of cattle and 8,000 sheep, or one species only?—it is not clear.

By the way, in your number of September 26, 1891, page 372, the Cuadra, of Buenos Ayres, is stated to be 3.99 acres, in place of 4.125 English acres.

Yours, etc.
James Fair.

Hillside, Burgess Hill, Sussex.

The tobacco market is at such a dead stand that it would seem as if Argentines are giving over smoking. Tucuman tobacco is down to $12 ⅝ the 10 kilos, and some lots have been sold at $11 ⅝. Corrientes tobacco for best class $16 ⅝ paid and $15 for regular. Misionero is selling at 19 and $20 ⅛, arrivals small and demand improving; some good lots sold as high as $25 ⅝, and subsequently at $22 ⅛. Chewing tobacco, prepared here and got up in the same style and form as that from the United States. All the cigar shops in town now use Argentine tobacco, and they say the best so-called Havannahs are made from good Misionero tobacco, which is in great demand.

Captain Malcolm of British brgt. Persia, who arrived in this port yesterday, was asked to report bk. Eaton Hall in latitude 4° 28 N. and 21° 17 W. long., from Liverpool, bound to San Francisco. 28 days out.

Mr. Seeber favors us with the following letter and particulars of the Catalinas Wharf Co.:—

Dear Mr. Mulhall,

"Catalinas for ever! must be changed now for Poor Catalinas! Everything is against them, even the truth. I beg for some little rectification, if you please.

"It is not the Mortgage Bank, but the Company itself, that will sell some of the plots fronting the General Brown Avenue, as will be seen by the inclosed advertisement of Messrs. Guerrico and Williams.

"The price paid for this land was $48 per square vara, 20% cash and 80% in shares. Nothing has been decided yet about the Company's petition, that the arrangement made to finish our claim by arbitration should be included in the extraordinary sittings of Congress; the Government being too busy with other affairs.

"I suppose an honest Government cannot do otherwise than agree to what we ask for; as if the State should be condemned, there is no practical reason why a year more of damages should be added to what the Government has to pay; and in the case the company should not be recognized in its rights, it would be unjust and inconvenient to expose it to one year more of interest on its heavy debt.

"Liquidation at once would be the best thing.

"Yours truly,
J. Seeber."

Paper Money.

Projectors every now and then start up with plans for curing all the economical evils of society by means of an unlimited issue of inconvertible paper. There is, in truth, a great charm in the idea. To be able to defray the expenses of government without taxation, and, in fine, to make the fortune of the whole community, is a brilliant prospect, when once a man is capable of believing that printing a few characters or bits of paper will do it. The philosopher's stone could not be expected to do more.

The substitution of Paper for metallic currency is a national gain: any further increase of Paper beyond this is but a form of robbery.—*John Stuart Mill on Inconvertible Paper Curreney.*

BRONCHITIS

Dr. J. Collis Browne's Chlorodyne—Dr J Collis Browne (late Army Medical Staff) Discovered a Remedy, to denote which he coined the word «Chlorodyne.» Dr Browne is the Sole Inventor, and as the composition of Chlorodyne cannot possibly be discoverd by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr Browne's Chloredyne must be false.

This caution is necessary, as many persons deceive purchasers by false representations.

Dr. J. Collis Browne's Chlorodyne—Vice Chancellor Sir W PAGE WOOD stated publicly in Court that Dr. J. BROWNE was undoubtedly the INVENTOR of CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to—See «The Times,» July 13, 1864

SHEEP DIP

TRADE MARK

ACARICIDE.

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties. — At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping**. We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the **"Thorncliffe Sheep Dip"** as one of the safest and most effective dips that has ever come under our notice.

THREE GOOD REASONS.

Why Sheepmen everywhere should use

Alexander Robertson's

HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep. Cures Scab. Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infected sheep. The strength and pure nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly, but their use is disastrous to the fleece—the hard, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil. (25 o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25o/o), 2 lbs. Carbolic Acid (95o/o). 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas vasta esfera de accion y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales los que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercádo donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus attas. y S. S
